ABOUT ME

- As a versatile Full Stack Developer boasting 1.5 years of hands-on experience, I possess a robust skill set encompassing both frontend and backend development. My expertise lies in delivering comprehensive web solutions through a proficient command of Java, HTML, CSS, JavaScript, Angular, and React. I am well-equipped to contribute to your team's success, bringing forth a professional background in the development and design of web applications that are both functional and aesthetically pleasing.
- As a collaborative team player, I pride myself on my excellent technical abilities and am eager to apply my accumulated knowledge to drive projects forward. With a comprehensive grasp of both backend and frontend development requirements, I am ready to take on challenges and deliver results that align with your company's objectives.
