WORK EXPERIENCE

Infosys Ltd

System Engineer, Full Stack Developer   Joined in December 202

- Developed scalable backend systems to support high-traffic websites and applications, ensuring smooth operation during peak times.
- Spearheaded the adoption of agile development methodologies, improving project management efficiency and flexibility. I utilized my skills in Java, JavaScript, MySQL, HTML, Spring Boot, CSS, BootStrap, TypeScript, and React to design, develop, and maintain software applications. I collaborate with cross-functional teams to gather requirements, analyze user needs, and implement effective solutions.
- Additionally, Reviewed code, debugged problems, and corrected issues.
